Problem Statement	Understand why students are churning and what can stakedolers do to decrease churn?						
Data Sources	Slack to find inactive students in May Cohort						
	,						
							r
Data Collection	To understand why students left, data was collected via email and phone calls						
	Only 5 out of 60 people responded to our email						
	Phone calls worked better						
Summary of why students left the program							
_	_						
Reason	Frequency						
4 consecutive hours are too much	10		eason				
Studies Load: university and devnation		10					_
Facing difficulty to complete daily tasks		5					
Job		8					_
Internet Issue		3					
Exams		6					_
Financial reasons	2	2 3 4					
Don't have all learning tools. For example personal computer		2 Ledneuck					
Expectation not meet e.g: Looking for job		2 —					_
Better opportunity elsewhere

Recommendations							
To increae student engagement	To improve data collection	To automate data collection					
Take oath from every student at the beginning of the program	Use same email when joining the program everyday	Use an app to collect 1. Attendance 2. Voice and chat data 3. Pose and eye ball movement 4. Facial expressions and emotions					

Arrange 1-1 with students to get to know studenrts and their problems more	Change zoom pro settings	Create a bot which take weekly based questioners and every person should have to fill it.		
Have weekly valuations	Mostely student left because of study load and tir	me managment issue.		
Collect constant feedback				
Arrange seminar led by students
